

FACILITATING EFFECTIVE & ENJOYABLE COLLEGE CAMPUS VISITS

An important part of the college search process is visiting and exploring college campuses. The goals of our **College Campus Visit Planning Services** are to:

- **Save you considerable time needed to plan and execute a successful multi-campus trip**
- **Relieve the stress of navigating complex admissions websites to find available visit options**
- **Provide tools and guidance to facilitate and maximize enjoyable on-campus visits**

In addition to campus tours and information sessions, there are many other unique campus visit opportunities, including: department/program tours, auditing a class, lunch with a student, meeting a professor, full day programs, interviews, and more. Taking advantage of admissions events helps students demonstrate interest, discover a true sense of best fit, gain specific examples to refer to during future admissions interviews, and write genuine "why us" essays. Knowing the schedule and visit options prior to your college road trip is extremely valuable, and having direct links will allow you to register for events easily and efficiently.

Based on your list of colleges and travel dates, we will:

- **Research available admissions event options**
- **Identify travel time between campuses to map out the best visit schedule**
- **Help analyze options to maximize efficiency and opportunities**
- **Prepare a proposed itinerary with links to register**

Once your schedule is finalized, we will provide you with everything you need in one place:

- **An easy to use, step-by-step, comprehensive, real-time final itinerary** with links to campus visits events, your admissions representative contact details, campus maps, parking, local recommended dining & attractions, tips, and your travel confirmations (as provided)

Refer to our [Campus Visit Available Options Example](#), which reflects the available Admissions activities offered at each college on the dates requested, and our [Finalized Campus Visit Itinerary Example](#) resulting from the final selections.

College touring can be effective and enjoyable for students and families alike! If you have questions or would like to discuss options for an upcoming trip, please contact [Jessica Miquel](#).
